

Motor-mower FC 130

REVERSIBLE HANDLEBARS

The adjustable and anti-vibration handlebars, together with the practical control of the gears reverser, makes the mower easy to use. Their reversibility makes it possible to use a number of different implements.

DOUBLE BLADE SYSTEM

The innovative double connecting rod movement system guarantees excellent cut and eliminates all kinds of vibration on the handlebars to provide great comfort.

WHEEL CAPS

The built-in wheel spacers are covered by sheet metal caps which avoid accumulation of grass around the axle and provide an effective protection of the oil guard.

MODEL FC 130

Engine	Gearbox	PTO	Clutch	Reversible handlebars	Wheel axle	Safety device	Sickle bar	Weight
