

FLAIL MOWER EURO L27 - 55 KW (35-75 HP)

The EURO L is a professional machine for green agriculture and public areas. It is ideal for cutting high grass and bushes on abandoned and arable areas, for maize, oil root and other crop residues, cutting material up to 5 cm in diameter. For heavy duty work we recommend hammers, while the use of y-blades is more often for grass & softer material. Rear discharge is behind the rear roller. Mechanical offsetting is in standard equipment, while a hydraulic offsetting is optional. Special 3-point hitch allows kombi - front or rear mounting with simple change of the position. The rotor is a double spiral rotor which gives a 45% distribution of working blades and requires less power whilst ensuring a fast work rate and great finish.

EURO L	 KW-KM	 cm	 cm	 rpm	 pc	 pc	 kg
160	27-35/35-48	162	182	540/*1000	40	20	483/502
190	34-45/45-60	192	212	540/*1000	48	24	493/518
230	42-55/55-75	227	247	540/*1000	56	26	584/616
270	55-73/75-100	272	290	540/*1000	68	34	644/664
